# THE TRUSTED PROVIDER OF SAFE AND RELIABLE SOFT CRAFT SERVICES

STREAMLINE OPERATIONS, REDUCE COSTS AND EXPEDITE PROJECT DELIVERY BY COMBINING SERVICES

## OUR SERVICES

### SCAFFOLDING:

Brock has extensive experience with OH&S compliant scaffold engineering, design, erection and dismantling. We maintain an inventory of 18.5M pieces of scaffold enabling us to immediately service our customers needs.

### INSULATION:

Brock's industrial insulation expertise facilitates maximum efficiency while reducing risks and costly repairs. Our capabilities include installation for large-scale capital projects, energy efficiency studies, maintenance, and repair.

### COATINGS & LININGS:

As a leader in the development and management of industrial coatings solutions, Brock combines technical expertise with practical skills, providing high-quality surface preparation and coatings for all facility assets. Both in the field and in our industrial paint shops.

### ABATEMENT:

Operating in accordance with CEPA and OH&S regulations, Brock's process is designed to minimize inconvenience while fully isolating the area. Brock will then safely test, remove, and dispose of lead and asbestos.

### FIREPROOFING:

Brock provides high-performance fire protection systems tailored to specific project requirements and designed to minimize the escalation of fire from the failure of structural supports.

### FACILITIES MAINTENANCE:

Brock offers a full range of industrial services related to facility maintenance including; concrete, carpentry, janitorial, roads, grounds and landscape solutions while ensuring continuous improvement and the best value for our customers.

### ROPE ACCESS:

Brock's innovative approach to achieve optimum work positionings when performing tasks at heights or in confined spaces that have historically only been managed using scaffold or man-lifts.

## ABOUT US

Brock is a leading services company providing specialty soft-craft solutions for industrial turnaround & capital projects, as well as recurring maintenance support that is necessary for supporting continuous & reliable operations of our critical energy infrastructure and industrial processing facilities throughout Canada & United States.

Brock's solutions-based approach combines an integrated suite of industrial specialty services with a process driven delivery, underpinned by a rigorous safety culture that allows our skilled workforce of 12,000+ employees to consistently deliver best-in-class performance for our customers.
