BRINDERSON[®]

A Brock Company

Get the experience and training you need to start your career.

APPRENTICESHIP

An apprenticeship with Brinderson combines on-the-job training with classroom instruction, all under the supervision of a journey worker level professional. Apprentices get paid while they develop knowledge, skills, and abilities in a new career field.

After completing an apprenticeship program, apprentices receive a state-approved professional credential that is recognized nationwide.

Apprenticeship is one of the best ways to get the experience and training needed to start your career. You may decide on the program you are interested in, apply for the apprenticeship, interview with the program staff, and be accepted into the program.

Brinderson has 50 years of providing services to customers with outstanding safety performance.

ABOUT BRINDERSON

Founded in 1965, Brinderson is an integrated service provider of maintenance and construction for the oil refinery and energy related facilities. Services include project management, project controls, estimating, quality control, civil, structural, mechanical, piping, electrical, instrumentation, scaffolding, insulation, painting, and abatement. Oil refinery clients include Chevron, Marathon, Phillips 66, Par Pacific, ExxonMobil, and Valero, as well as California Resources in the upstream market.

STRONG SAFETY FOCUS

- 10-year average 0.24 recordable incident rate
- Over 100 hours of safety training
- Routinely recognized for our safety performance by AFPM

ABOUT THE REFINERY INDUSTRY

An oil refinery is an industrial process plant where crude oil is transformed and refined into useful products such as naphtha, gasoline, diesel fuel, asphalt, heating oil, kerosene, liquefied petroleum gas, jet fuel, and fuel oils.
